**Swedish Booklets**

Before 1940, booklets were handmade and usually held two panes of 10 stamps (2x5). About every third booklet contained one row of stamps with straight edges at right or left side. Set-tenant pairs may be obtained with one stamp perforated on 4 sides and one perforated on 3 sides.

Starting in 1940, booklet stamps have one or more straight edges.

**DISCOUNT BOOKLETS**

Every Swedish household received during Apr. 1979, 2 coupons for the purchase of 2 discount booklets, #1277a. The stamps were for use on post cards and letters within Sweden. The stamps are inscribed "INRIKES POST."

The program continued with numerous changes. The Inscription changed to "PRIVATPOST" in 1981, the same year that denominations were added. At some point the stamps could also be used to Denmark, Norway, Finland and Iceland. In 1991 the discount value of the stamps ended July, 1.

The last stamps inscribed "PRIVAT POST" were issued in 1993.
