

KOREA, DEMOCRATIC PEOPLE'S REPUBLIC

kə-'rē-ə

LOCATION — Peninsula extending from Manchuria between the Yellow Sea and the Sea of Japan

GOVT. — Republic

AREA — 47,398 sq. mi.

POP. — 22,170,000 (2000 est.)

CAPITAL — Pyongyang

At the end of World War II, American forces occupied South Korea and Russian forces occupied North Korea, with the 38th parallel of latitude as the dividing line. North Korea was administered by a Provisional People's Committee after Feb. 9, 1946. Unoverprinted Japanese stamps continued to be used until the first North Korean issue of March 12, 1946. On Sept. 9, 1948, the Democratic People's Republic of Korea was established, and the last Soviet troops left Korea by the end of the year.

100 Chon = 1 Won (1962)

Catalogue values for unused stamps in this country are for Never Hinged items.

North Korean stamps were issued without gum, unless otherwise noted. Early issues typically exist in a variety of color shades.

Values for used stamps are for cancelled-to-order copies from 1957-on. Postally used stamps are worth more. Copies on non-philatelic covers are scarce, especially for 1946-1960 issues.

REPRINTS

During 1955-57 the North Korean Postal Administration created "reprints," actually imitations, of most 1946-56 issues for sale to collectors. These reprints were postally valid, and in some cases may have served real postal needs, but most were created for and sold to overseas collectors.

The reprints are more finely printed than the original stamps and are normally printed on a higher quality white wove paper. They often differ from the original printings in both size and design details. Specific distinguishing characteristics are provided below, with the descriptions of each issue.

Value of reprints, \$1-\$1.50 each, unused or cto, unless otherwise noted.
