100 Cents = 1 Gulden (Guilder or Florin)

100 Cents = 1 Euro (2002)

Catalogue values for unused stamps in this country are for Never Hinged items, beginning with Scott 216 in the regular postage section, Scott B123 in the semi-postal section, Scott C13 in the airport section, Scott J80 in the postage due section, and Scott O44 in the official section.

Values for unused stamps are for examples with original gum as defined in the catalogue introduction. Very fine examples of Nos. 4-12 will have perforations touching the frame line on one or more sides due to the narrow spacing of the stamps on the plates. Stamps with perfs clear on all four sides are very scarce and command higher prices.

Syncopated Perforations

Type A

Type C

Type B

These special "syncopated" or "interrupted" perforations, devised for coil stamps, are found on Nos. 142-156, 158-160, 164-166, 168-185, 187-193 and certain semipostals of 1925-33, between Nos. B9 and B69. There are four types:

A (1st stamp is #142a). On two shorter sides, groups of four holes separated by blank spaces equal in width to two or three holes.

B (1st stamp is #164a). As "A," but on all four sides.

C (1st stamp is #164b). On two shorter sides, end holes are omitted.

D (1st stamp is #174c). Four-hole sequence on horiz. sides, three-hole on vert. sides.

The paper of Nos. 7-22 sometimes has an accidental bluish tinge of varying strength. During its manufacture a chemical whitener (bluing agent) was added in varying quantities. No particular printing was made on bluish paper.

Two varieties of numerals in each value, differing chiefly in the thickness.

Oxidized copies of the 50c are worth much less.

Imperforate varieties of Nos. 7-12 are proofs.

NETHERLANDS INDIES

'ne-thər-lən.dz 'in-dēs

(Dutch Indies, Indonesia)

LOCATION — East Indies
GOVT. — Dutch colony
AREA — 735,268 sq. mi.
POP. — 76,000,000 (estimated 1949)
CAPITAL — Jakarta (formerly Batavia)

Netherlands Indies consisted of the islands of Sumatra, Java, the Lesser Sundas, Madura, two thirds of Borneo, Celebes, the Moluccas, western New Guinea and many small islands.

Netherlands Indies changed its name to Indonesia in 1948. The Netherlands transferred sovereignty on Dec. 28, 1949, to the Republic of the United States of Indonesia (see "Indonesia"), except for the western part of New Guinea (see "Netherlands New Guinea"). The Republic of Indonesia was proclaimed Aug. 15, 1950.

100 Cents = 1 Gulden
100 Sen = 1 Rupiah (1949)

Catalogue values for unused stamps in this country are for Never Hinged items, beginning with Scott 250 in the regular postage section, Scott B57 in the semi-postal section, and Scott J43 in the postage due section.

Values for unused stamps are for examples with original gum as defined in the catalogue introduction. Very fine examples of No. 2 will have perforations touching the frameline on one or more sides due to the narrow spacing of the stamps on the plates. Stamps with perforations clear of the framelines on all four sides are scarce and will command higher prices.

OCCUPATION STAMPS

Issued under Japanese Occupation

During the Japanese occupation of the Netherlands Indies, 1942-45, the occupation forces applied a great variety of overprints to supplies of Netherlands Indies stamps of 1933-42. A few typical examples are shown above.

Most of these overprinted stamps were for use in limited areas, such as Java, Sumatra, Bangka and Billiton, etc. The anchor overprints were applied by the Japanese naval authorities for areas under their control.

For a time, stamps of Straits Settlements and some of the Malayan states, with Japanese overprints, were used in Sumatra and the Riouw archipelago. Stamps of Japan without overprint were also used in the Netherlands Indies during the occupation.

NEVIS

'nē-vās

LOCATION — West Indies, southeast of Puerto Rico
GOVT. — A former presidency of the Leeward Islands Colony (British)
AREA — 36 sq. mi.
POP. — 8,794 (1991)

Nevis stamps were discontinued in 1890 and replaced by those of the Leeward Islands. From 1903 to 1956 stamps of St. Kitts-Nevis and Leeward Islands were used concurrently. From 1956 to 1980 stamps of St. Kitts-Nevis were used. While still a part of St. Kitts-Nevis, Nevis started issuing stamps in 1980.

See Leeward Islands and St. Kitts-Nevis.

12 Pence = 1 Shilling
 100 Cents = 1 Dollar

Catalogue values for unused stamps in this country are for Never Hinged items, beginning with Scott 100 in the regular postage section and Scott O1 in the officials section.

Unused examples of Nos. 1-8 almost always have no original gum, and they are valued without gum. These stamps with original gum are worth more. Other issues are valued with original gum as defined in the catalogue introduction. Very fine examples of Nos. 1-8, will have perforations touching the design on at least one side due to the narrow spacing of the stamps on the plates. Stamps with perfs clear of the design on all four sides are scarce and will command higher prices.
