In the fine impression, the background lines of the shield are more sharply drawn. In the coarse impression, the shading lines at each end of the scroll inscribed "LIBERTAD" are usually very heavy. Stamps of the coarse impression are closer together, and there is usually a dividing line between them.

Nos. 1-3 exist on thick paper and on bluish paper. Nos. 1-6 exist on pelure paper.

The greenish paper varieties (Nos. 1b and 3c) and the bluish paper varieties were not regularly issued.

These stamps were made available for postage and revenue by official decree, and were the only stamps sold for postage in Venezuela from Mar., 1871 to Aug., 1873.

Due to lack of canceling stamps, the majority of specimens were canceled with pen marks. Fiscal cancellations were also made with the pen. The values quoted are for pen-canceled copies.

Different settings were used for the different overprints. Stamps with the upright letters were issued in 1871. Those with the slanting letters in one double line were issued in 1872-73. Specimens with the slanting overprint in two double lines were issued starting in 1874 from several different settings, those of 1877-78 showing much coarser impressions of the design than the earlier issues. The 7r and 9r are not known with this overprint. Stamps on laid paper (1875) are from a separate setting.

In 1879 and the early part of 1880 there were no regular postage stamps in Venezuela and the stamps inscribed "Escuelas" were permitted to serve for postal as well as revenue purposes. Postally canceled copies are extremely scarce. Values quoted are for stamps with cancellations of banks or business houses or with pen cancellations. Copies with pen marks removed are sometimes offered as unused stamps, or may have fraudulent postal cancellations added.

Nos. 49-57 exist without overprint. These probably are revenue stamps.

Nos. 68 to 73 were used for the payment of postage on letters to be sent abroad and the Escuelas stamps were then restricted to internal use.

Counterfeits of this issue exist in a great variety of shades as well as in wrong colors. They are on thick and thin paper, white or toned, and imperf. or perforated 11, 12 and compound. They are also found tête bêche. Counterfeits of Nos. 68 to 72 inclusive often have a diagonal line across the "S" of "CENTS" and a short line from the bottom of that letter to the frame below it. Originals of No. 73 show parts of a frame around "BOLIVAR."

Gen. Francisco Antonio Gabriel de Miranda (1752-1816).

These stamps were in use from July 4 to Nov. 4, 1896. Later usage is known.

There are many forgeries of this issue. They include faked errors, imperforate stamps and many tête bêche. The paper of the originals is thin, white and semi-transparent. The gum is shiny and cracked. The paper of the reprints is often thick and opaque. The gum is usually dull, smooth, thin and only slightly adhesive.

The 50c with center in blue was never issued although copies were postmarked by favor.

The centers of Nos. 250-255 were separately printed and often vary in shade from the rest of the design. In a second printing of the 5c and 10c, the entire design was printed at one time.

Perforated Initials

After 1925, Venezuela's official stamps consisted of regular postage stamps, some commemoratives and air post stamps of 1930-42 punched with "GN" (Gobierno Nacional) in large perforated initials.

LOCAL STAMPS FOR THE PORT OF CARUPANO

In 1902 Great Britain, Germany and Italy, seeking compensation for revolutionary damages, established a blockade of La Guaira and seized the custom house. Carúpano, a port near Trinidad, was isolated and issued the following provisionals. A treaty effected May 7, 1903, referred the dispute to the Hague Tribunal.
