Wmk. 140-Crown

Wmk. 282- Ethiopian Star and Amharic Characters, Multiple

Excellent forgeries of Nos. 1-86 exist.

Very Fine examples of Nos. 1-86 and J1-J42 will have perforations touching the design on one or more sides due to the narrow spacing of the stamps on the plates and imperfect perforating methods. Stamps with margins clear on all sides are scarce and command high premiums.

On March 9, 1894 Menelik II awarded Alfred Ilg a concession to develop a railway, including postal service. Ilg's stamps, Nos. 1-79, were valid locally and to Djibouti. Mail to other countries had to bear stamps of Obock, Somali Coast, etc.

Ethiopia joined the UPU Nov. 1, 1908.

Nos. 135-154

The Amharic surcharge indicates the new value and, therefore, varies on Nos. 135-154. There are numerous defective letters and figures, several types of the "2" or "1/2," the errors "guerhce," "gnerche," etc.

Many varieties of surcharge, such as double, inverted, lines transposed or omitted, and inverted "2" in "1/2," exist.

There are many irregularly produced settings in imitation of Nos. 136-154 which differ slightly from the originals. These may be essays or proofs.

FALKLAND ISLANDS

fol-kländ Ț-länds

LOCATION — A group of islands about 300 miles east of the Straits of Magellan at the southern limit of South America

GOVT. — British Crown Colony

AREA — 4,700 sq. mi.

POP. — 2,607 (1996)

CAPITAL — Stanley

Dependencies of the Falklands are South Georgia and South Sandwich. In March 1962, three other dependencies — South Shetland Islands, South Orkneys and Graham Land — became the new separate colony of British Antarctic Territory. In 1985 South Georgia and the South Sandwich Islands became a separate colony.

12 Pence = 1 Shilling
20 Shillings = 1 Pound
100 Pence = 1 Pound (1971)

Catalogue values for unused stamps in this country are for Never Hinged items, beginning with Scott 97 in the regular postage section, Scott B1 in the semi-postal section, Scott J1 in the postage due section, Scott 1L1 in Falkland Island Dependencies regular issues, Scott 1LB1 in Falkland Island Dependencies semi-postals, and Scott 2L1, 3L1, 4L1, 5L1 in the Issues for Separate Islands.

Values for unused stamps are for examples with original gum as defined in the catalogue introduction.

Nos. 1-4, 7-8, and some printings of Nos. 5-6, exist with straight edges on one or two sides, being the imperforate margins of the sheets. This occurs in 24 out of 60 stamps. Catalogue values are for stamps with perforations on all sides.

FIJI

fē-ˈjē

LOCATION — Group of about 844 islands (106 inhabited) in the South Pacific Ocean east of Vanuatu

GOVT. — Independent nation in British Commonwealth

AREA — 7,078 sq. mi.

POP. — 812,918 (1999 est.)

CAPITAL — Suva

A British colony since 1874, Fiji became fully independent in 1970.

12 Pence = 1 Shilling

20 Shillings = 1 Pound

100 Cents = 1 Dollar (1872-74, 1969)

Syncopated Perforations

Type A (1st stamp #873): On shorter sides, the seventh hole from the larger side is an oval hole equal in width to three holes.

Catalogue values for unused stamps in this country are for Never Hinged items, beginning with Scott 137 in the regular postage section and Scott B1 in the semi-postal section.

Values for unused stamps are for examples with original gum as defined in the catalogue introduction except for Nos. 1-10 which are valued without gum. Additionally, Nos. 1-10 are valued with roulettes showing on two or more sides, but expect small faults which do not detract from the appearance of the stamps. Very few examples of Nos. 1-10 will be found free of faults and these will command substantial premiums.

10	A1	1sh black, pink	1,500. 1,600.

This service was established by the Fiji Times, a weekly newspaper, for the delivery of the newspaper. Since there was no postal service to the other islands, delivery of letters to agents of the newspaper on the islands was offered to the public.

Nos. 1-5 were printed in the same sheet, one horizontal row of 6 of each (6p, 1sh, 1p, 3p). Nos. 6-10 were printed from the same plate with three 9p replacing three 3p.

Most used examples have pen cancels. Up to three sets of imitations exist. One on pink laid paper, pin-perforated, measuring 22½x16mm. Originals measure 22½x18½mm. A later printing was made on pink wove paper. Forgeries also exist plus fake cancellations.

Finland was a Grand Duchy of the Russian Empire from 1809 until December 1917, when it declared its independence.

100 Kopecks = 1 Ruble
 100 Pennia = 1 Markka (1866)
 100 Cents = 1 Euro (2002)

Catalogue values for unused stamps in this country are for Never Hinged items, beginning with Scott 220 in the regular postage section, Scott B39 in the semi-postal section, Scott C2 in the air-post section, Scott M1 in the military stamp section, and Scott Q6 in the parcel post section.

Unused stamps are valued with original gum as defined in the catalogue introduction except for Nos. 1-3B which are valued without gum. Used values for Nos. 1-3B are for pen-canceled copies. Very fine examples of the serpentine rouletted issues, Nos. 4-13c, will have roulettes cutting the design slightly on one or more sides and will have all "teeth" complete and intact. Stamps with roulettes clear of the design on all four sides are extremely scarce and sell for substantial premiums.

FIUME

'fyü-ä-mä

LOCATION — A city and surrounding territory on the Adriatic Sea

GOVT. — Formerly a part of Italy

AREA — 8 sq. mi.

POP. — 44,956 (estimated 1924)

Formerly a port of Hungary, Fiume was claimed by Yugoslavia and Italy following World War I. During the discussion, the poet Gabriele d'Annunzio organized his legionnaires and seized Fiume, together with the islands of Arbe, Carnaro and Veglia, in the name of Italy. Yugoslavia recognized Italy's claim and the city was annexed in January, 1924.
